

Mi libro del saber

(My book of knowledge)

Our final project is to make books for the next group of 6th graders that are coming from French class. They are going to make books for you, too!

In this book you will put all that you learned this year in Spanish class.

Here's how it works.

1. You will create a book with 10 pages + 1 front cover + 1 back cover. (12 pages total)
2. On each page that isn't a cover, you will show the person what you learned!
3. You will choose any 4 topics we learned in class (examples below)
4. You will choose the student that is in French class that you would like to give it to.

What we learned in class

Alphabet

Numbers

Costa Rica Geography

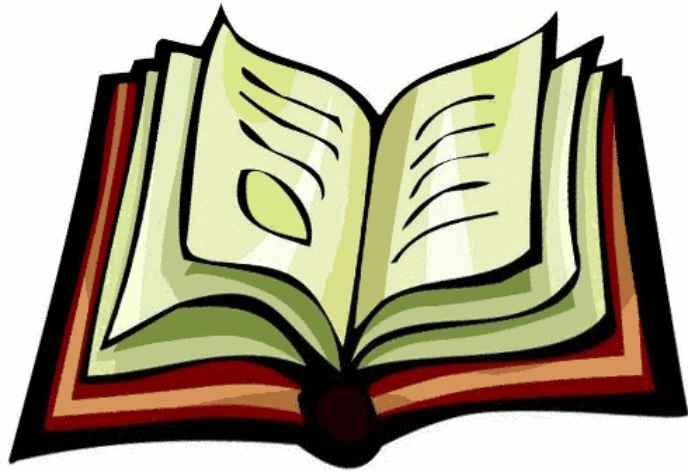

Colors

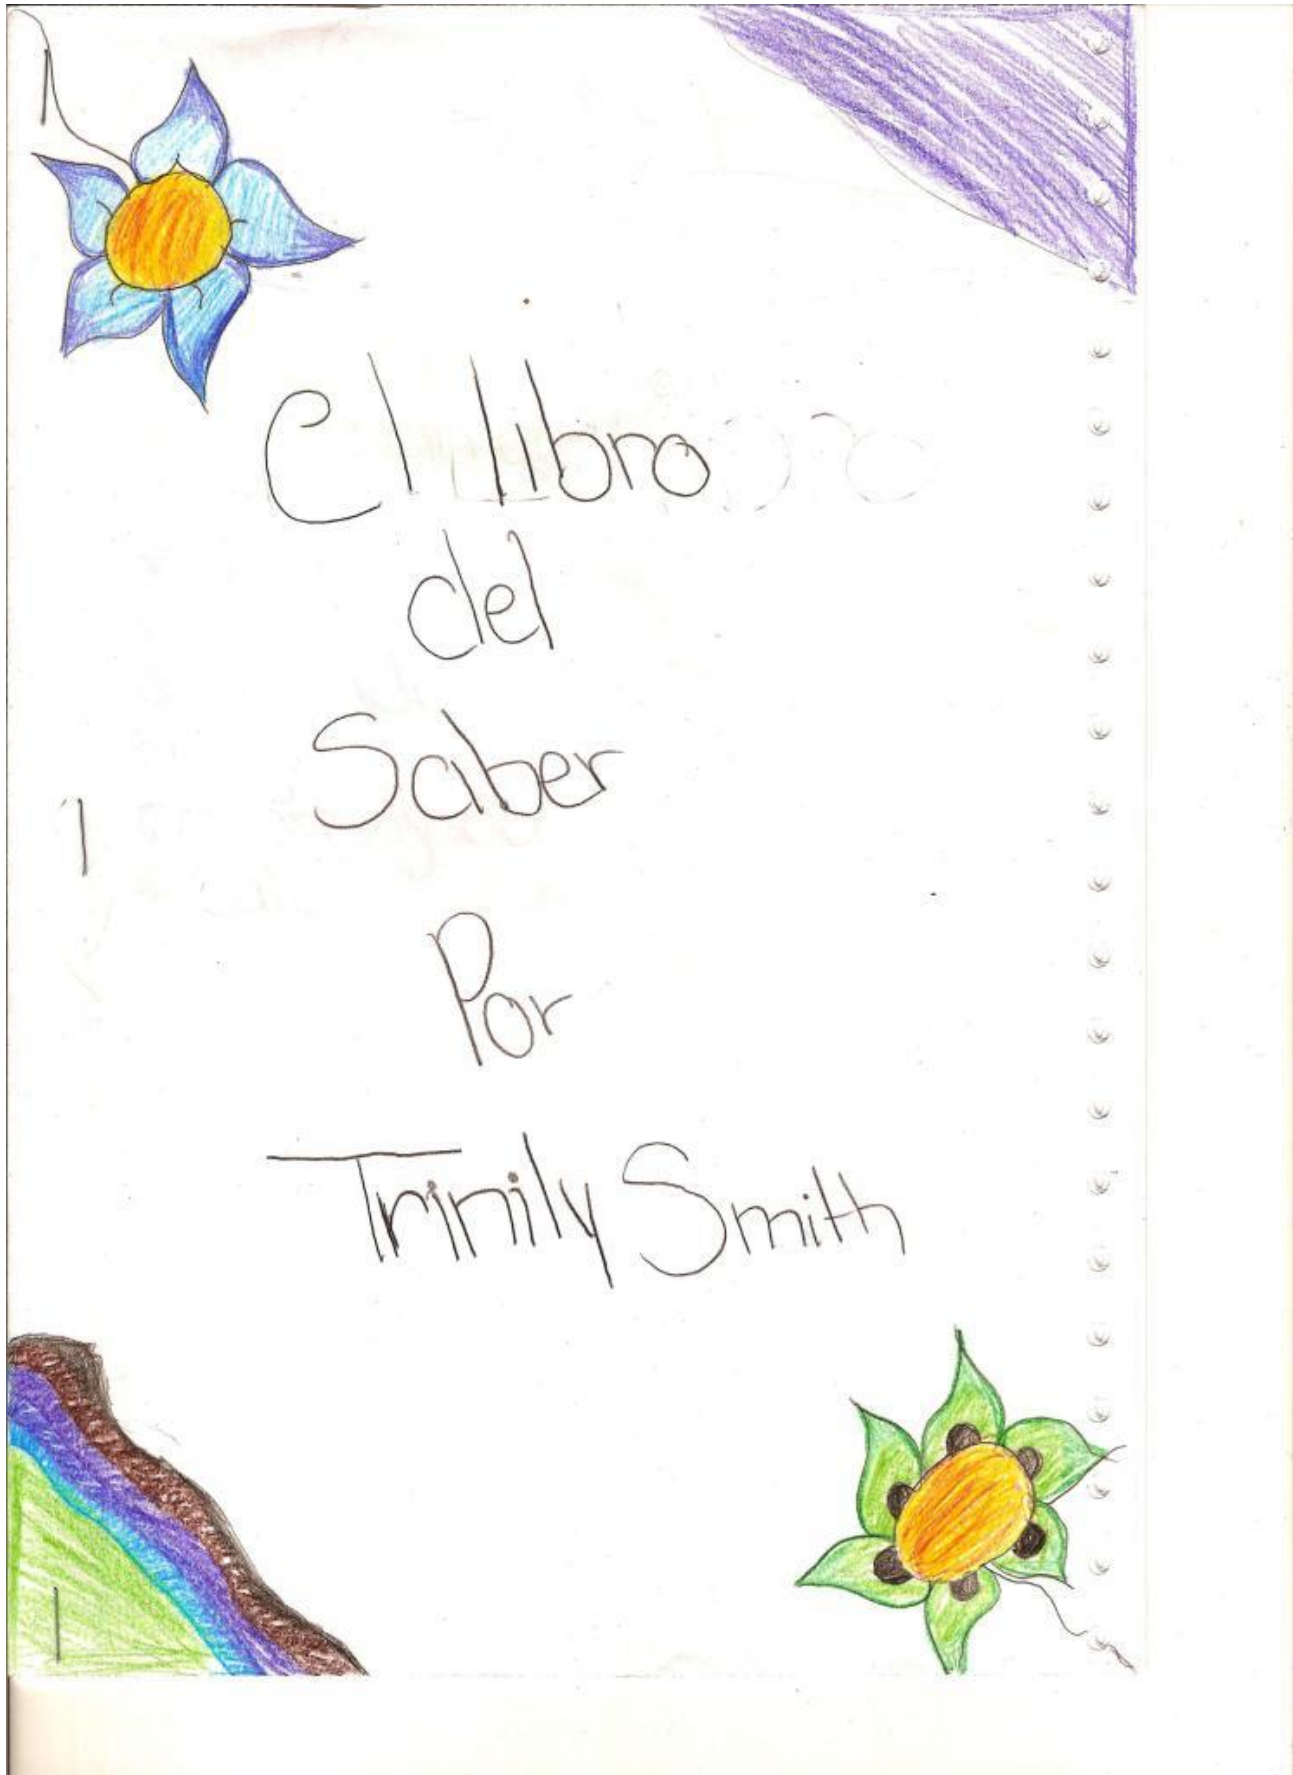

Food

The body

Asking "how are you?"
